QUESTIONS

WHAT IS YOUR TIMELINE?

All projects are unique. We will create an estimated timeline for your scope of work. There are always variables to be considered. Our focus will always be on quality craftsmanship delivered as close to the deadline as possible.

TEMPORARY HOUSING?

Have you considered moving out of your home while your project is underway?

SPECIFIC EVENTS?

Are there specific events or life changes ahead that are influencing your timeline?

WHAT IS YOUR REAL BUDGET?

Having a number in mind will help you prioritize your goals. It's always a good idea to approach any project with an amount you are comfortable investing.

UNSURE? CONSIDER THESE QUESTIONS.

Is this project being implemented primarily for resale value or personal enjoyment? Is there a contingency fund/plan for unexpected expenses? What are comparable home values in your neighborhood?

QUESTIONS FOR US?

Please ask as many questions as you need about the process! This is a big investment and clear understanding and open communication is vital.

- START A VIRTUAL DESIGN BOARD** A picture is worth a thousand words. It can be challenging to verbalize what's in our heads. Thankfully there are platforms like Pinterest and Houzz. Set up a board and start pinning. If you're not already a pinner, we can help. This is an awesome way to gather ideas and a wonderful tool to convey a design vision.
- BUDGET** A budget is the best way to prioritize your needs. Do a little research on home values and search the internet for a general idea on what consumers in your area are looking for. Once your design scope is established, we can help you define the budget to make sense for your project.
- TIMELINE** It is very exciting to get a project started, but creating a realistic timeline is the best way to embark on a project that reaches everyone's goals. Look at your calendars and give yourself options: Remember that good things are worth waiting for.
- CALL OR EMAIL** Let us share in your home experience. We are waiting to hear from you!
